Trail Description

Start from the **Náměstí** (Square) and walk through the western gate **Sejfská Fortna** towards the main street **Horská**. Take the sidewalk from here to the left. After about 50 m, cross the street **Horská** and walk past the parking garages along the street **Špitálská** toward a cross. Here, on an ascending asphalt path, turn to the left. After about 150 m, you will come to an information board, behind which you can see an old **water tower**.

1

Just before the information board, you may take a narrow foot path, which leads to the water tower and one of the four small village chapels built on the hillsides around **Hostinné**. The small village chapel is about 25 m from the road (F1).

F1

From the information board the trail will take us along the gardens at the **Hrnčířský Vrch** (Pottery Hill). Along the trail are well-maintained crosses. After about 1 km, you will reach a place where the asphalt road turns into a dirt trail. After the second power line pole, turn right to the field path.

After another 250 m, the field path will take you to an asphalt road. Here, turn right and continue among the meadows. The switchbacks will take you to a farm. Walk between the farm buildings, until you come to the second class road **Hostivínská in Arnultovice** (F2). Watch out for traffic!

F2

Cross the road and turn right. The river **Čistá** will be on your left. After less than 300 meters, you will arrive at a house with an orange façade. Here you turn left onto a path between property plots and cross the bridge over the river **Čistá** (F3). Here, turn right and continue along the left bank, all the way to the following bridge made of metal. Here, you will cross the river again and after the bridge, turn right.

2

After about 50 m, you will arrive at the restaurant **U Soudku**, you may take a break.

F3

Pass the traffic sign with the name of the town **Hostinné**. Just behind the house decorated with frescoes (F4), cross the road and continue along the sidewalk on the other side. Walk to the busy intersection with the main road in the street **Horská**. Watch out for traffic!

Turn left at the pedestrian crossing. On the other side, turn right on the sidewalk and just around the corner at the end of the railing, cross the road in street **Horská**. Continue up a small hill and then walk through the gate **Sejfská fortna** to the **Náměstí** (Square) (F5).
